

## News from the management

### We welcome Christoph Heubeck as new manager of TVU

TVU News – Edition August 2022

In addition to the 100-year-anniversary of the company, we can also look forward to welcoming a new face in the management this year. From 1st September on, Christoph Heubeck will be appointed manager of all companies of the TVU Group and will take over the management together with Gerhard Hausner. We are happy and proud that with Christoph Heubeck, we were able to win an absolute industry expert and innovative manager from the TVU House for the management. Christoph Heubeck had already researched and written down the history of the family business as part of a school thesis. After graduating, Christoph Heubeck helped to work with undersaged, unaccompanied refugees in Germany and joined TVU in 2016 as an assistant to the management. As authorized signatory and commercial director, he has played a significant role in influencing and making progress with the development of TVU. From 1st September on, a new professional period begins for him as manager, for which we wish all the best and look forward to working together.

"My name is Christoph Heubeck, I am 31 years old, and I am working for TVU for six years now. As an assistant to the management, I could gain a lot of experience in different parts of the company and since 2021 I am an authorized signatory and responsible for commercial matters in the TVU Group. Furthermore, another work focus until now was the introduction of a new ERP-System.

I graduated at the University of Bayreuth in Economics, and before I took a gap year in England. My wife and I have a 10-month-old daughter. In my free time I like to be active in sports (hockey, volleyball, ice hockey) and I like to spend time with friends.

I am looking forward to working with Gerhard Hausner and the strong TVU team at our side to further advance TVU and to continue working in partnership with you."

We would also like to welcome Christoph Hausner, son of Gerhard Hausner, who is part of the TVU since 1st July 2022. When his father Gerhard was appointed to the management of TVU in 1991, he was only 6 years old and was about to start school. Christoph has been closely involved in the development of TVU since his childhood and this year he consciously decided to work in the family business. After completing his studies, Christoph Hausner gained a lot of professional experience by employments at internationally active companies. We are very happy to have Christoph Hausner back in Leutershausen and to work with him. We wish him all the best for his future.

"I, Christoph Hausner (37), am part of the TVU family since the beginning of July. I am currently getting to know the various departments of the company before taking up my job in TVU's sales department.

After studying Economics in Nuremberg and Valencia, I worked three years at Rödl & Partner in the advisory department. Afterwards, I focused on the topics of Controlling and Finance and worked in this field for two years at LEONI and for four years at Diehl.

In my private life, I like to be active in sports. In particular, I play football and follow it passionately. I am very happy to be working in our family business and to continue supporting TVU's successful path. I look forward to meeting you soon."

### We look positively into the future

Today we are not only happy about our 100-year anniversary and over 75 years of dyeing in Leutershausen but can also look forward to the future with optimism. With their commitment, flexibility and innovative strength, 150 employees at the Leutershausen site form the foundation for our journey. The various pillars are developing positively and with well-founded research and development projects, we are continuing to look for new business ideas that specifically take sustainability into account. Because in this we see not only opportunities, but also a great sense of purpose in our actions. We now know that decades ago it was right to take environmental aspects into account and to conserve valuable resources. We are convinced that this is the right way to preserve our history and shape the future.

Yours faithfully

Your TVU-Team
